

COMCAST - Trenching

Update from 5/10/21 Notice

TRENCHING BEGINS MONDAY

COMCAST's sub-contractors, Southeast Utilities, MTZ begin trenching this coming Monday, the 17th!

Three crews begin in ALL of the communities listed below.

- New fiber-optic cables and related equipment will be installed for up to date service to Comcast customers.
- Most trenching, cable install, and equipment will be in front yards of the residential homes in these communities. Above-ground equipment related to this work, includes installations of 'boxes'. These 'boxes' are defined as either, 'vaults' or 'cabinets'.

1. **Caribe Isle**

1. Between 100 & 104 Caribe Ct., vault to be installed
2. Between 120 & 122 Caribe Ct., cabinet to be installed
3. Between 208 & 212 Caribe Ct., vault to be installed

2. **Mediterranea**

1. Between 2868 & 2870 Waters Edge Cir., cabinet to be installed, if non-existent now

3. **South Cove**

1. Between 128 & 132 Cove Rd., cabinet to be installed, if non-existent now

4. **Southpointe**

1. Between 2701 & 2703 Pointe Cir., cabinet to be installed, if non-existent now
2. Between 2773 & 2775 Point Cir., cabinet to be installed, if non-existent now

Underground boring will be used to bore under driveways, and roads.

Your help is requested:The POA has requested that ALL trucks and heavy equipment that must park on sodded areas, place 3/4" plywood, or other type of dunnage, under the wheels or outriggers, to evenly distribute the weight and reduce damages to the irrigation systems.
