

River Bridge Begins Return to Pre-COVID Life

We are pleased to announce the return to pre-COVID life here in River Bridge! It's been a long, arduous journey for everyone, and we are all very happy to get back to normal.

All common area rooms are open for normal functions and amenities are returning to normal operating hours.

Masks are optional, but are encouraged, as it provides a certain amount of comfort, while the population gets vaccinated, and new variants of the virus remain a threat.

NOTE: As janitorial staff is limited, plan accordingly if you want to clean and sanitize before or after your activity or event.

Your Social Director, Michelle Orfanos, is coordinating with the class teachers, agents, club presidents, HOAs and other necessary individuals in order to faze back to normal. Look for future announcements as activities and events are added back into the Performance Center and Activities Center calendars. Some activities may take a little longer to be added to the calendar due to scheduling issues.

IF you are experiencing symptoms of the coronavirus, please stay home.
