

ACC NETWORK ARRIVAL

Due to the high level of customer requests for the new ACC Network please note that this programming has been added to your bulk telecommunication services as Channel 402.

ACC Network is a collaboration between the ACC and ESPN. ACC Network has 24/7 programming that includes sporting events but also documentaries, hosted talk shows and more. Think of it as an ESPN channel just for the ACC.

College sports fans there is no action required by you other than clicking on Channel 402.

Thank you.
