Opticaltel Helpful Hints ARE HERE!

How do I record a series?

From the Guide, highlight a program and press the **INFO button** to open the details pane. Use the right arrow button to find the **"Record Series"** option and press the **OK button** to open the Record Series options. Select **"All"** or **"New Only"** to indicate which episodes to record. Select **"All"**, 1, 5, or 10 episodes to indicate how many episodes should be recorded by hitting the right arrow. Then hit the down arrow to click on the okay button to save the setting.
